Re: 2015 Coaches Courses

Dear President,

For years the FIVB has helped to organise a number of Coaches Courses worldwide aiming to provide the best technical education and enable the development of Volleyball and Beach Volleyball at all levels. These courses have ranged from the very basic level I to the most developed level III and have been an instrumental tool to spread our disciplines worldwide.

This year, following the course request deadline, the FIVB is happy to announce that 34 Coaches Courses are scheduled for 2015 between March and November. As listed in the FIVB's website, please find the list of all courses registered this year on the following link:

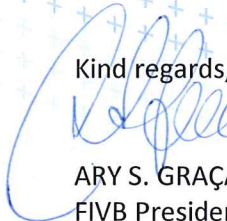

<http://www.fivb.org/EN/Technical-Coach/Calendar.asp?Year=2015>

We would also like to encourage all National Federations to use the Development Centres in their corresponding regions and/or seek the support of Olympic Solidarity to ensure access to such courses.

We believe that a stronger family will naturally lead to more Volleyball, so in the spirit of innovation, it is our mission to continuously enhance FIVB's educational programmes and increase the impact such projects generate.

Thank you for being part of this.

Kind regards,

ARY S. GRAÇA F°
FIVB President
